

NGO QUANG HUY

INTERN

SUMMARY

Enthusiastic student with a strong foundation in software development and cloud computing, particularly in ASP.NET Core and AWS. Experienced with macOS development environments like Visual Studio and IntelliJ. Seeking an AWS internship to expand my cloud skills and contribute to innovative projects.

SKILLS

- Programming Languages
 - Java, Javascript, C++, Python, C#, Ruby
- Web Development
- Frameworks
 - Asp.net core, ReactJS, Ruby on rails, Flutter
- Database Management Systems
 - MySQL, FireBase RealTime DTB
- Tools
 - Github, GitLab, Trello

EDUCATION

Information Technology

Nha Trang University • 2021-present
• GPA 3.1/4.0

LANGUAGES

- English - Native

EXPERIENCE

Web Developer Internship

FPT Software • April 2023 – July 2023

- Assisted in developing and maintaining web applications, collaborating with software engineers to ensure code quality and system efficiency.
- Participated in requirements analysis, design, and implementation of new features using technologies such as ReactJS and JavaScript.
- Communicated and worked effectively in a team to deliver projects on time.

PROJECT

University Registration Web Application

<https://github.com/griox/University-Registration>

- Developed a web application using React.js for students to register their university preferences.
- Integrated Firebase for user authentication, allowing students to securely sign up, log in, and manage their accounts.
- Implemented email verification and PIN retrieval via Gmail using Firebase Authentication to enhance security.
- Utilized Firebase Realtime Database for storing and managing student data efficiently.
- Applied dynamic form handling, state management with React hooks, and responsive design for a seamless user experience across devices.
